

DAO Charter Ratification - Cover Note

A Decentralized Initiative for Art, Technology & Collective Memory

We're building a decentralized initiative where every token and action contributes to preserving digital and physical heritage. Our mission is to align real-world activation with Web3 culture, staking, and long-term impact.

Global Park DAO | April 2025

Purpose of This Document

This Cover Note affirms the formal ratification of the Global Park DAO Constitution, a foundational document defining the principles, structure, and governance procedures of the DAO.

The Constitution has been reviewed, accepted, and made publicly available by the initiating DAO Council, and is now recognized as the operational charter for the community, contributors, tokenholders, and future signatories.

Status of Ratification

- Date of initial publication: April 2025
- Phase of DAO: Genesis Phase (Multisig Governance)
- Snapshot governance status: Advisory-only (binding voting to be enabled upon quorum conditions)
- Contractual enforcement: Council multisig (3-of-5 Gnosis Safe)

- Smart contract status: Immutable token contract deployed, DAO-owned
- DAO treasury address: 0x4C7635EC1f6870cBBD58c13e3aEB4e43B7EE7183
- DAO ENS domain: globalpark.eth

Transition to Autonomous Governance

This document will remain in effect until the DAO meets the threshold for activating its Autonomous Phase, at which point:

- Binding Snapshot voting will replace multisig-based decision making;
- This Constitution may be amended through formal governance procedures.

For questions, amendments, or proposals, contributors are invited to engage via official DAO communication channels or submit proposals through Snapshot upon activation.

Signed on behalf of the Council,

Global Park DAO
