

ONBOARDING DAO

A Decentralized Initiative for Art, Technology & Collective Memory

We're building a decentralized initiative where every token and action contributes to preserving digital and physical heritage. Our mission is to align real-world activation with Web3 culture, staking, and long-term impact.

1. Welcome to Global Park DAO

Welcome! You've discovered Global Park DAO – a decentralized, community-driven initiative dedicated to blending technology, nature, and collective memory.

This guide will walk you through how to join, participate, and contribute to the evolution of the project.

Global Park is more than just a token. It's an invitation to shape a shared space – online and on the ground.

2. What You Need to Participate

To join and engage with the DAO, you'll need:

- GPARK Token – required to vote and submit proposals (must be unlocked)
- Crypto Wallet – like MetaMask or similar
- Optional: ENS Name – for identity in forums and voting
- Community Access – join our official channels:
- Visit globalpark.eth for all communication channels

3. Governance Basics

Global Park DAO is structured in two governance phases:

Genesis Phase (initial):

- Votes are advisory
- Execution managed by DAO Council (multisig signers)

Autonomous Phase (future):

- Votes become binding
- Community has full decision power

DAO governance is based on:

- Snapshot for off-chain voting
- Proposal submission thresholds
- Multisig Council for treasury execution
- Transparency & consensus

4. How to Vote

Voting happens on [Snapshot.org](https://snapshot.org). Here's how to vote:

1. Connect your wallet holding unlocked GPARK
2. Go to the official Global Park DAO Snapshot page
3. Review the active proposals
4. Cast your vote within the given time window
5. Wait for the result or discuss in the forum

Note: Voting is open to holders of at least 50,000 GPARK (during Genesis Phase)

5. How to Submit a Proposal

To make a proposal:

- Hold at least 10,000 unlocked GPARK
- Or gain preliminary community support via forum upvotes
- Follow the proposal template (linked in forum or Docs)

Proposals should include:

- Title & objective
- Detailed description
- Requested budget (if any)
- Wallet address for funding
- Timeline & milestones

Once prepared, proposals are posted for feedback before voting.

6. Ways to Contribute

You don't need to vote to be useful! Contribute by:

- Designing visual content or digital assets
- Helping write, translate, or edit documentation
- Proposing new features, locations, or formats
- Joining working groups (grants, partnerships, environment, tech)

- Moderating the community

Every contribution – big or small – adds value.

7. Grant Program (Coming Soon)

Global Park DAO will offer grant funding for impactful proposals aligned with its mission.

What to expect:

- Open application rounds
- Clear proposal process
- Transparent voting
- Post-funding reporting and feedback

Stay tuned for the first call for grant proposals.

8. FAQ – Frequently Asked Questions

Do I need to invest to participate?

No. Anyone can observe, join discussions, or help without buying tokens.

Can I earn from this project?

The DAO does not promise earnings. Value may emerge over time, but is not guaranteed.

Is there a team behind this?

The DAO was initiated by a pseudonymous founder and is now community-led.

How do I know it's safe?

Use your own wallet. Keep your keys safe. No one from the DAO will DM you asking for funds or access.

9. Security and Ethics

- Never share your seed phrase
- Only trust official links and verified ENS (globalpark.eth)
- Be respectful in all public and internal channels
- Act in line with the DAO's non-profit, public-good mission

10. Key DAO Links

- All other resources and communication links are available at: globalpark.eth
